# Transformus 2019 Volunteer Teams

Unless otherwise noted below, all volunteers should head to Mission Control in Center Camp at the start of their shift!

## **11th Principle: Consent!**

*Lead: TinTin*

*Co-Leads: Avarice Bliss and Heather Mitsu*

The 11th Principle team returns for our fourth Transformus! We seek outgoing and passionate volunteers to promote consensual interaction at the burn through education and advocacy. Two kinds of volunteers are needed this year: Consent Liaisons at the Greeters station, who educate incoming participants, and Consent Castle volunteers, who use their own unique gifts and skills to educate about consent at the Consent Castle. Don't hesitate to email us if you have any questions!

*What a volunteer should expect:*

Basically you are a consent ambassador. Help people understand the 11th principle and converse with them about it. Whether as a Greeters assistant or while passing out schwag, helping the community feel good about boundaries and acceptance is the name of the game. 11th Principle does not require volunteers to attend a training.

*What's a typical shift like?*

Shifts are three hours long. You'll be talking to other burners and helping them learn more about what we mean by "consent," why consent is important, and basic consent DOs and DON'Ts. When everyone is talking about consent, it's easy to assume that you know what it means, or to feel like you SHOULD know what it means and be embarrassed to ask. 11th Principle volunteers help destigmatize ignorance around consent and help burners learn how to respect others *and themselves* by knowing and practicing clear consent.

*Volunteers should bring:*

Sunscreen! That goes double for 11<sup>th</sup> Principle shifts at Greeters, where you may be in and out of shade.

## **Accessibility**

*Lead: Jenny Elmore*

*Co-Lead: Kim Taylor*

The Accessibility Team helps to make Transformus more readily available to be enjoyed by people with disabilities. Burners who have questions about accommodations for special needs are directed to Accessibility so that pertinent info to ensure maximum safety and availability can be collected. This info is then disseminated to other applicable teams and Accessibility continues to be involved throughout the burn, acting as liaisons.

This will be the first year for Accessibility Team Volunteers! So yeah -- Super Cool!

*What a volunteer should expect:*

The most important part of the Accessibility volunteer role is being a welcoming entity who promotes inclusivity. Volunteers will be at the gate during all gate hours ready to meet and greet burners with accessibility needs -- you'll learn everything you need to know for Accessibility during your shift.

The Accessibility volunteers at Gate will be helping to direct those with vehicles that have been pre-approved to be in-camp to meet their needs. Volunteers will help keep an awareness around where these burners are camping, and that these burners have discreet signage that states that their vehicles are approved to be on-site for accessibility.

Virgin Burners with Accessibility needs can also be educated about Rangers as a point of contact if they have an immediate and pressing situation during the event.

*What's a typical shift like?*

Most Accessibility shifts are four hours long, with three hour shifts at the close of each day.

*Volunteers should bring:*

Sunscreen, water, snacks, a chair, mobile shade like an umbrella -- anything that will improve your comfort level while sitting at Gate. While you may have access to shade during your shift, you should plan on being out in the sun while you're helping people obtain the assistance they need.

## **Back Door Brigade**

*Leads: Oracle and Regina*

The main responsibility of Back Door Brigade volunteers will be to help Mysterians find space in open camping, to keep open camping maps current, and to keep open camping condensed. Each neighborhood(ish) will have one Back Door Brigade Volunteer during each shift.

*What a volunteer should expect:*

Back Door Brigade volunteers act as their Brigadier's "right hand." While they have a secondary responsibility to manage open camping in their area, they are the assistants to Brigadiers in their neighborhood. Sometimes, Brigadiers may be caught up in a conflict, or have to deal with more than one situation at once; if so, they can send their BDB volunteer gallivanting off to fetch someone or finish a task. Back Door Brigade folks move around quite a bit. They check in with their Brigadier, may be moving around open camping to settle people in, help lost hippies find their spots in the neighborhood, and generally be on-the-move at all times. Frequently, Back Door

Brigade folks may move between neighborhoods, if there's a Brigadier in need elsewhere.

*What's a typical shift like?*

Shifts are four hours long. Each Back Door Brigade volunteer will have a map of both the local neighborhoods as well as a map of local open camping, broken up into sectors. As part of the Back Door Brigade, you will carry these with you to keep tabs on open camping still available in your assigned neighborhood. The best Back Door Brigade volunteers are action hippies who are ready to help guide folks home, and get them settled in, and able to rise to challenges as they present themselves.

*Volunteers should bring:*

Back Door Brigade volunteers should bring their state-issued ID to check out a radio, and probably shoes. Pants aren't required, nor is total sobriety, but you should be able to think and speak clearly. For daytime shift folks, sunscreen is suggested, as well as plenty of water.

## **Creativity (Art)**

*Lead: Snax*

*Co-Leads: Radar, Lisa, and Guy Gunn*

Wanna help artists set up their awesome stuff, and/or take their awesome stuff down? Well friend, you are in the *right place*. We're looking for people just like you!

*What a volunteer should expect:*

The art team is looking for friends to help our artists set up or break down their creations! You'll get to talk with and learn from our artists and have a direct impact on the landscape of our art! You'll need to do some lifting, walking, and perhaps even some ladder climbing (physical ladders, not metaphorical ones).

*What's a typical shift like?*

Shifts are four hours. Whether you're helping to set up, or helping to take things apart, same gig.

*Volunteers should bring:*

Sunscreen and clothes you don't mind working in.

### **Department of City Planning (DCP)**

*Lead: Sundance*

*Co-Leads: Puck and Cookie*

Each year, the City Planning team determines the location of the theme camps and all other elements of the city that need placement – and lays out the entire city before anyone arrives! They provide support and guidance to all of the theme camps of Mysteria, and work tirelessly to ensure that everyone has a little piece of Mysteria to call their own. “City Planning: Putting You in Your Place!”

### **Department of Mutant Vehicles (DMV)**

*Leads: Lucky Bastard and Jeff Tipton*

The DMV oversees Art Car inspections to ensure that the roads of Mysteria are kept safe!

Need to have your Art Car inspected? Head to Mission Control to get in touch with the DMV lead on duty.

### **Department of Public Works (DPW)**

*Lead: Bambi*

*Co-Leads: Shadetree and Monty Scienceist*

DPW is one hardworking team! They work before and after Transformus, providing valuable services that Transformus 100% could not exist without. Pre-burn, DPW helps set up all our stuff like canopies and tables. Post-burn, DPW really goes into action, taking down all the gear and repairing the land where all the dancing hippies, stuck cars, and large structures have caused a trace. Along with the LNT team, DPW truly embodies the Leave No Trace principle. They do hard work but they always do it

extremely well, making sure our home looks as amazing when we leave as when we got there, if not better!

*What a volunteer should expect:*

Hard but rewarding work. Everything from spreading seed to fixing holes and general land beautification. Work gloves and a will to put a little loving into the land are required. There's jobs for all skill levels on DPW.

*What's a typical shift like?*

DPW shifts are five hours long. Pre-burn, you'll be setting up tents for other teams; post-burn, taking those tents down again. During the event, there are tasks like site checks, reseeding burn scars, etc.

*Volunteers should bring:*

Clothes you feel comfortable doing work in, sunscreen, and plenty of water! If you happen to have some gloves lying around, go ahead and bring 'em.

### **Drummers Conclave**

*Lead: Joseph Locke*

Drummers Conclave is the soundtrack for the Saturday night burn. Take a break from listening to DJs and participate by playing your drum or other percussion instrument before and during the effigy burn. We use a PA to keep everyone in sync and send the sound across the burn field. We inspire Fire Conclave to kick butt and amp up the energy for the effigy burn.

*What a volunteer should expect:*

We will have a shelter on or near the burn field to quickly protect drums in case of rain. We need both drummers/percussionists and roadies. Roadies will help move the PA gear, setup and break down, and keep people from tripping over wires. Drummers will drum or play other percussive instruments. The shift will be from about an hour before dark on Saturday until the effigy falls.

## **Fire Conclave**

*Leads: Boots and Munky*

### **Conclave doesn't happen without fire safeties!**

Fire Conclave takes place before the Effigy burns on Saturday night. Without safeties we couldn't even have Conclave, so your help is immensely appreciated!

*Do I need prior training to be a Conclave safety?*

Whether or not you have previous experience as a fire performance safety, you are required to attend a safety training session at 2:00 pm Saturday on the burn field. If you would like to be a fire safety, this is the shift to sign up for -- and, as a bonus, you get a front row seat to the show!

*What a volunteer should expect:*

All fire safety shifts start at 8:00 pm Saturday on the Burn field. The shift lasts as long as the burn is happening, but probably less than four hours.

*Volunteers should bring:*

If you have a duvetyne fire blanket (or can borrow one from a campmate), bring it with you!

**Fire Spinners:** There are no sign-ups for you. Just arrive on the Burn field at 2:00 pm on Saturday and *bring a safety*. We can never have enough safety volunteers!

### **Fire Response Team (FRT)**

*Lead: vespa*

*Co-Lead: The FNP*

We all like fire, right? The problem with fire is that it's dangerous if not handled properly. That's why FRT exists! If something at the burn involves fire, then FRT is in charge of making sure it doesn't wreck someone's day (or worse). All fire art must be inspected and approved by FRT; when the effigy and temple get burned, FRT are the guys in the silver suits making sure it all falls down properly and

doesn't harm the crowd. It's a super important job that is right at the center of our event.

*What a volunteer should expect:*

Most FRT shifts are centered around the effigy and temple burn. Some volunteers (with training) are watching the burn and making sure it stays in the center of the field and doesn't fall into or blow up onto the crowd. It's hot out there, so other volunteers pass water to the fire watchers and make sure everyone is on their game. FRT lets the crowd know when it's safe to get closer once the fire gets lower.

Outside of that, FRT is responsible for handling any fire-related issue that comes up, from inspecting fire art to putting out dangerous fire situations if they occur, so volunteers should already be trained in these skills.

### **Did you bring a poofer or other fire art?**

All fire art **MUST** be approved by FRT beforehand! To contact FRT, find someone with a radio or head to Mission Control to get in touch with the lead on duty.

### **Freeze Your Burn (FYB)**

*Lead: Jordan La Liaison*

The FYB folks are in charge of distributing all of the ice that you ordered when you bought your ticket. To be absolutely clear, we are **NOT** selling ice on site – only distributing ice that was pre-ordered through our ticket vendor. Decommodification, baby! As always, all ice profits will be donated to a good cause that is local to our event at Marvin's Mountaintop.

Ice Pickup is Saturday, from 11:00 am to 2:00 pm – look for the freezers in Center Camp! Ice orders are listed under the name and email address of the purchaser, so be prepared to provide that email address to the FYB folks as verification during pick-

up. If you do not come pick up your ice during that time, we will donate it to whichever burner we deem most worthy...

## **Gate**

*Lead: Special*

*Co-Leads: Space Cat, Alexis Delilah, Michael Nighttime, and Kahlil*

It's the Gate! You'll be the first people to welcome Mysterians home, scan their tickets, collect their waivers, put on their wristbands, and give them all the info.

*What a volunteer should expect:*

Gate volunteers get to sit in the shade under a nice big tent, so this is a great shift for anyone who is sun-sensitive or has mobility issues. You get first eyes on all the excited Mysterians as they get ready to enter the city; prepare for lots of hugs and thank yous!

*What's a typical shift like?*

It's a four-hour shift of crazy fun! You'll sit behind a table with other awesome volunteers and do your part in the ticket-scanning, waiver-collecting, wristband-putting-on parade that is Gate check-in. Sobriety isn't required -- but responsibility is, so moderate as needed.

*Volunteers should bring:*

Sunscreen, water, and snacks. Chairs and shade provided!

## **Greeters**

*Leads: Tremaine and Jermaine*

Do you want to enthusiastically welcome the community home to Transformus? If so, we've got the team for you! Here you can educate people on the I I Principles, give virgins a crash course in Burn culture, help veterans find a place to park their snark, and show off your map reading skills by telling people where to find their camp.

*What a volunteer should expect:*

Lots of action! You greet everyone coming into Marvin's Mountaintop during your shift and do all of the things listed above. Knowing the Principles and being able to explain them to Mysterians is important. Helping them understand any procedures that may be new is also necessary.

*What's a typical shift like?*

Greeters shifts are three or four hours long. Can you hand out a few spankings? Smile while doing it? Hug people fiercely while explaining how Mysteria works? Then Greeters is for you!

*Volunteers should bring:*

Chairs, sunscreen, water, snacks, and a burning passion to educate burn virgins and veterans alike on our I I Principles!

## **Inventory**

*Lead: Jeff Carver*

*Co-Lead: Bexx*

Every Team in Mysteria counts on the Inventory Team to keep track of their team's gear year-round and get their stuff to Mysteria for the burn.

*What a volunteer should expect:*

The shifts are quick and action-packed. Volunteers should have the ability to lift at least 25 pounds – we have a lot of heavy stuff to load into and out of the Inventory truck.

Note that several of the Inventory volunteer shifts take place in Raleigh NC before or after the event. If you're local, come help us out!

## **Leave No Trace (LNT)**

*Lead: Fireball*

Not only is LNT an important Principle – it's also a team at Transformus. This team takes ownership of making sure we as a community are not only

educated about how to not leave a trace, but ensures that every trace is removed at the end of the event. LNT keeps our land clean and green! It isn't just some fancy talk we burners spout off about – it really is a way of life at Transformus. It is everyone's responsibility to pick up MOOP (i.e., Matter Out Of Place -- everything from the grounds that isn't naturally there). The simple way to do this is never let it hit the ground in the first place. Butts from cigarettes, glitter, pieces of plastic, waste food, grey water, feathers, whatever you might drop... DON'T. If it came to the burn with you – no matter how small -- it must go home with you, no exceptions!

*What a volunteer should expect:*

LNT volunteers promote LNT and also participate in actively removing any traces that are found. No burn is perfect, and no matter how hard we all try, some things are going to slip through the cracks and hit the ground. During a LNT shift, volunteers patrol the grounds looking for MOOP and picking it up. A keen eye for MOOP, a passion for the community, and an understanding of the importance of LNT are key qualities for a volunteer on LNT.

*What's a typical shift like?*

Most LNT shifts are about two hours long – with the exception of the post-event MOOP sweep. During Transformus, a team of two volunteers will do trash pick-up daily together around all of the portos. After everything is spruced up nice and clean, each team will wander about Mysteria to pick up random trash until the shift is over. On Monday afternoon, a team of volunteers will MOOP Mysteria one last time, after surveying for the MOOP map is completed. These volunteers will be allowed to stay on property Monday night and can leave Tuesday morning before noon (make sure you pick up your late exit wristband from Mission Control!).

*Volunteers should bring:*

Sunscreen, water, and a zest for maintaining the beauty of Mysteria! Gloves, trash bags, and hand sanitizer are provided.

## **Mission Control**

*Lead: Pocket*

*Co-Leads: Lala, Dangle, On Shift, and Silver*

Here at Mission Control, we are all about making sure everything and everyone is where they need to be to make the event as awesome as possible.

- Need to sign up to volunteer? We got you!
- Need a golf cart for your team? \*Slaps roof of cart\* Check this sweet baby out.
- Need a radio for your shift? Radio check, 1, 2. Over.

Now, we know you're thinking, "How can such an important team operate without volunteers to make it happen?" The answer is simple: we can't! That's why we need awesome people such as your beautiful self to help us make sure everything goes off without a hitch.

*What a volunteer should expect:*

If you want one of the most laid-back volunteer shifts that Mysteria has to offer, look no further! Mission Control is located under the big tent in Center Camp, so be prepared to hang out in the shade and help your fellow burners by making sure they have everything they need to be true-blue Action Hippies. On Thursday and Friday there will also be a Mission Control volunteer stationed at Gate during peak hours to recruit people to volunteer as they roll in to Marvin's Mountaintop.

*What's a typical shift like?*

Shifts are four hours long, and will involve a lot of fun and different tasks like checking out carts and radios to team leads and volunteers, helping Mysterians sign up for volunteer shifts on-site, answering questions about the various teams, and just generally being a source of contact and

information for the entire City. Don't worry – we have a helpful manual with all the info you'll need!

During the busy hours (around lunch), one of the MC volunteers will roam the city with a megaphone, informing Mysterians of upcoming events and volunteer needs. You'll also get to talk to passers-by about how cool volunteering is, and be an integral part of making Transformus happen!

*Volunteers should bring:*

A love for spreadsheets, shade, and maybe a little snark. Also snacks and things to keep you hydrated.

P.S. Mission Control is where most volunteers will meet with team leads at the start of their shifts, so head over to Center Camp early to hang out with our awesome MC folks before you start your own shift!

## **Moonshiners**

*Lead: Shank*

*Co-Lead: Wolverine*

Come join the Moonshiners' lantern lighting procession each evening and help light the way for fellow Mysterians in dramatic fashion! If dramatics aren't your thing, come help gather and maintain our lanterns during midday shifts to help ensure the safety of feet and ankles across the land.

*What a volunteer should expect:*

Moonshiner volunteers light the night for the lovely citizens of Mysteria. Moonshiners are the folks who set up the light poles and turn on the LED lamps all over the city of Mysteria, ensuring you know where the paths are when it's dark. Hang the lamps about sundown, replace batteries in the morning, etc. This is a definite teamwork-centric job, as carrying the lights all over Transformus requires several people at once.

*What's a typical shift like?*

Evening shifts usually only last for roughly an hour to an hour and a half. Morning shifts usually last the full two hours. Evening shifts involve lots of walking and some nights we will be carrying transport poles loaded down with lanterns and placing them all over town. Morning shifts consist of extinguishing or gathering the lanterns, changing the batteries out of the lamps, and staging them for the evening shift for redistribution.

*Volunteers should bring:*

Since you will usually be doing a bit of walking, comfy shoes are a must. During the evening shifts you will be wearing a cloak which may get warm, so hydration beforehand is key. But aside from that, just bring your lovely self!

## **Parking**

*Lead: Pez*

*Co-Leads: Erica Squirrel Dautel, Gavin the beard Kohler-Britton, and Brandie Bonnie Brown*

We park the metal mammoths that trek in from hippiewhoknowswhere. We manage, direct and UNjam traffic in our temporary and beautiful city from the moment you arrive to the moment you leave!! Did I mention that we look completely fabulous doing it? We do. You do. Volunteering is seeeeeexaaaaaaayyyy. Still with me? Lets get you all set up.

*What a volunteer should expect:*

In the lot, you will carefully be guiding excited arrivals to their completely customized parking place, waving those glorious LED wands at night to safely guide them to their new home-away-from-home. Whatever your task there will always be one or two leads running around to make sure you have everything you need to be a parking pro.

*What's a typical shift like?*

Shifts last 3-4 hours. Parking volunteers take positions along the road leading to and within the parking lot, enabling them to “pass” cars from one volunteer to another, steadily guiding cars to their temporary parking spot for the weekend. Although it does involve a small amount of talking to strangers, Parking doesn't require much in the way of verbal communication: volunteers flag cars to show them the correct path towards the next step-- either another volunteer further on, or a parking spot. If it's busy, it's not unusual to spend an entire shift on your feet, and often without much cover, so most volunteers try to come prepared for the weather. Parking has water and snacks for volunteers, as well as fun glowing things to help you flag cars or hold mini dance parties.

*Volunteers should bring:*

Parking is a lot of fun but depending on the day and time of your shift you could have a really active time or a super slow sit in your chair and tan kinda day! Prep for both!

Right off the bat, make sure you're wearing comfortable shoes. You'll probably be under open sky during your shift, so bring an umbrella or some other kind of shade, and don't forget your sunscreen! You may want to bring a blanket or chair so you can sit when things are slow. Parking recommends bringing your own water to ensure maximum hydration.

## **Perimeter**

*Leads: Transformus Rangers (see below)*

The “burn” of a regional burn refers to one of the few events that involve the entire community: gathering together to watch as an enormous piece of art is set on fire to celebrate the beauty of, and in, impermanence. As you might imagine, the fire gets pretty big. Perimeter's job is to establish and maintain enough space between the burners and the

burning art to make sure that everyone is safe. They're exactly like bodyguards, but instead of a movie star there's a multistory bonfire, and in place of the groupies there's a crowd of peaceful dancing hippies.

*Do I need prior training to volunteer?*

YES! No previous experience needed – just attend the training! Even if you've worked perimeter before, training is MANDATORY for all perimeter volunteers.

## **Effigy Perimeter Training:**

Saturday (7.20.19) at 3:00 pm on the Effigy Field.

## **Temple Perimeter Training:**

Sunday (7.21.19) at 3:00 pm on the Temple Field.

*What a volunteer should expect:*

Perimeter volunteers take a position between two of their fellows, keeping their attention focused on the crowd in front of them to make sure that no one crosses the perimeter line established by the lead. Usually, that doesn't require anything more than politely reminding someone of the boundary line and requesting that they step back. On the very rare occasion that someone chooses to ignore perimeter, volunteers are responsible for stopping them and physically escorting them away from the burn. Perimeter volunteers are positioned in such a way that volunteers have assistance in the event that they have to engage a burner who chooses not to follow the rules, so-- while it's highly unlikely that you'll need to tackle someone, and even *more* unlikely that you'll need to do it solo, if you like keeping people safe and enjoy the thought of possibly having to tackle someone, this is your department.

*What's a typical shift like?*

Perimeter lasts from 7:30pm until whenever your department lead determines that it's safe to give you the all clear. You'll probably be on duty for at least

two and a half hours, but your department lead will make the final call.

*Volunteers should bring:*

Water! You're gonna sweat! And wear something you can move in. You can always change into your amazing costume after the burn. Make sure you dress in natural fibers -- they're more fire resistant than most synthetics, which are often decidedly not fire resistant. You'll also want to make sure your whole body is covered from the back; there's a good chance you'll be positioned close enough to the fire that exposed skin will be uncomfortable. Some perimeter volunteers like to drape a wet towel over their back as heat protection.

## **Rangers**

*Lead: Nugget*

*Co-Leads: Critter, Radar, Runs With Scissors, and Fragile Turtle*

Rangers volunteer to promote the well-being and safety of the community during the burn. They can provide support in situations that may be beyond the scope or capacity to be solved by the community's existing commitment to Radical Self-Reliance and Civic Responsibility. Rangers provide non-confrontational mediation, information, promote public safety, and otherwise look for places to be of service to benefit the burn as a whole. Rangers also act as an initial point of contact between burners and EMS, Sanctuary, and Security, and are often able to help direct people to other departments or services when needed.

*Do I need prior training to volunteer with Rangers?*

Volunteers must have completed Ranger Training in the past 3 years at Transformus, Ignite, or any of our offsite trainings.

There will be two sessions of **Ranger Training** at Transformus this year: Thursday and Friday 1:00 pm at the Rangers HQ in Center Camp.

*What a volunteer should expect:*

Shifts are 4 hours long. Rangers are expected to remain sober for the entirety of their shift. A shift starts with getting relevant information about the burn that other rangers have gathered on previous shifts. Once they've gotten updated, and equipped with a radio and a partner, they're ready to start walking. While on duty, a ranger's job is not to go out and "help the burn," but first, simply to be *aware* of it. So, rangers spend their shift wandering around the burn pretty much like they would at any other time. If they'd normally want to check out art or go dance, that's the same thing they'll do as a ranger, although they do try to make sure they don't stay in one place for too long if they can. When they become aware of a situation, they rely on their training to identify if it's a problem, if it's a problem that needs outside assistance, and if so what kind of outside assistance is needed.

Rangers almost always offer assistance and support to burners who are already involved in a situation, rather than taking ownership of problems or demanding authority over others. Ranger shifts are often pretty quiet. When that isn't the case, it might involve mediating a dispute between campmates, meeting someone who had too much to drink and needs help finding their camp, providing assistance to other services to help maintain order during an accident or to find a burner they need to speak to, or just about anything else. Once your shift is done, you'll return to Ranger HQ in Center Camp and report on your shift to inform others before their shifts in the future.

*Volunteers should bring:*

Make sure you bring water! A hydrated hippie is a happy hippie. Wear your Ranger shirt for public visibility, and bring everything you'd normally bring, or want someone else to bring, when you go out (sunscreen, bug spray, electrolyte packets, bandaids, snacks, a pocket knife, etc.). Rangers try to be ready for situations without knowing about them

beforehand, so they often carry a surprising array of items with them. If you've attended training and still have questions, asking a more experienced rangers for their opinion can be very enlightening.

### **Dirt Rangers**

Rangers patrol the grounds in uniform (Ranger shirt) with walkie-talkies and act as the first line of communication between participants and EMS, Sanctuary and Security. The Rangers are dedicated to the safety of the citizens of Mysteria and its environs by addressing situations within the community that might otherwise require outside intervention. Volunteers must have completed Ranger Training in the past 3 years at Transformus, Ignite, or any of our offsite trainings. Each shift is 4 hours long and requires complete sobriety. A map of Mysteria will be provided!

- **Mentor** Rangers are Rangers who have had at least 2 Ranger shifts experience at any BMOrg sanctioned event.
- **Alpha** Rangers are new Rangers or someone who would prefer to team up with a more experienced Ranger.

### **Ranger Khakis**

Khakis are experienced Rangers who have been a Dirt Ranger a minimum of 3 times at any of the Transformus family of Burns. (If you have been a khaki Ranger at another Burn and would like to volunteer at Transformus, email [rangers@transformus.com](mailto:rangers@transformus.com) to ensure you understand our burn-specific Ranger protocol before signing up for a shift.) Khaki Ranger is always on the radio ready to dispatch Rangers or other team services where they are needed. The Ranger shift Lead always uses "Khaki" as their radio handle so at any time anyone with a radio (Ranger or otherwise) knows who to call for Ranger assistance. At Transformus this is also your experienced shift lead and who you go to for advice.

### **Sanctuary**

*Lead: Tanya Everywhere*

*Co-Leads: Obreeon and Dirty Prophet*

Sanctuary team is a rather underrated team. Lots of people don't even know they exist, and this isn't a bad thing. Sanctuary is there when the burn becomes too much for a participant. Every year some people hit their breaking point, perhaps due to stress, perhaps a natural cause, perhaps chemical related, whatever the reason it's no fun being stuck in a place with tons of people when you just can't handle it right then. That's when you go to sanctuary, a calm, secluded place where you can relax and get yourself back in a better state of mind with the help of some super caring volunteers. Believe it or not some of the busiest times for sanctuary are during the burn set up days like Wednesday and Thursday; these days are when people are SUPER stressed out, apt to get into big arguments, and blow their top. Some people get angry, some cry, some just can't deal and want to walk away from it all for a while. Sanctuary is there to help you through this and get you back on your game. Any EMS or Ranger volunteer can point you to sanctuary and help you get there when you need it as these teams work closely with sanctuary to ensure the well being of all our participants.

*Do I need prior training to volunteer with Sanctuary?*

For regular Sanctuary tent volunteers, no training is necessary. However, to volunteer as a Paisley (see below), you must have prior experience as a Sanctuary Volunteer or Paisley Volunteer at a previous Ignite! or Transformus event. Paisley training will take place on Friday and Saturday at 4:00 pm in Center Camp.

*What a volunteer should expect:*

In general your job is to help those who need help. Sanctuary is always located in an out of the way quiet spot so it can be as relaxing as possible. The kinds of people who end up needing sanctuary come from

all walks of life and for a variety of reasons. Your job is to be a calm presence to help that person get settled and back to a centered place of being. Training is provided as needed. Sanctuary volunteers are almost never seen because they are so ninja, but they are immensely valuable and the burn would be a much worse place without them. Sanctuary tent volunteers are patient, kind, not easily activated, and level-headed. Sobriety is a must! Costumes with blinkies or potentially distressing images should not be worn. No masks.

#### *What's a typical shift like?*

Volunteers should report directly to the Sanctuary tent for their shift. (If you're not sure where it's located, ask a Ranger or someone at Mission Control.) Sanctuary tent shifts are four hours long. In general your job is to help those who need help. Sanctuary is always located in an out-of-the-way, quiet spot so it can be as relaxing as possible. The kinds of people who end up needing sanctuary come from all walks of life and for a variety of reasons. Your job is to be a calm presence to help that person get settled and back to a centered place of being. Training is provided as needed. Sanctuary volunteers are almost never seen because they are so ninja, but they are immensely valuable and the burn would be a much worse place without them.

#### *Volunteers should bring:*

We provide everything a volunteer might need for their shift, but you might want to bring some sort of activity to keep yourself occupied in the hopeful case that sanctuary is empty during your shift.

#### *What is a Sanctuary Paisley?*

The Paisley team assists volunteers with their shifts, provides mobile support and outreach, and assists the Lead on duty with meeting the needs of our community. They are the initial contact for many sanctuary participants, and will work closely with other teams at the burn to provide the best possible support to those in need. Requires prior experience

as a Sanctuary Volunteer or Paisley Volunteer at a previous Ignite! or Transformus event.

Paisley shifts are six hours long. This is a roaming shift; the individual on call will be given a golf cart to patrol the event and respond to mobile sanctuary needs. Sobriety is a must. Paisleys should wear sensible clothes, as they will be assisting with transport and off-sanctuary-site duties. Paisleys are level-headed, patient, kind, and not easily activated. Paisleys will also be acting as sanctuary oversight, so managerial strengths are a plus.

Paisleys will report to sanctuary to rendezvous with the outgoing Paisley before heading to Center Camp to check out a golf cart and radio. Make sure you have your state-issued ID with you!

#### **Shuttle Team**

*Lead: Angela*

*Co-Lead: Erik*

Welcome to Transformus' new Shuttle Team! Getting Mysterians from here to there and everywhere. The Shuttle Team is looking for folks wanting to drive around Mysteria in a 6-seater golf cart.

Requirements: You must have a valid drivers licenses and bring it with you when you check in. You must be sober during your shift. Be willing to engage your passengers and talk about happenings around Mysteria. You will have a walkie-talkie, so you will need to know how to use it.

That's it! Look forward to seeing you all at Transformus 2019!

#### *Do I need prior training to volunteer with XX?*

Nope! If you've never driven a golf cart or used a radio before, ask the Shuttle Lead for a brief overview.

*What a volunteer should expect:*

There will be a designated route with stops for moving Mysterians around the mountain. As a volunteer, you will be driving along this route and stopping at the shuttle stops to pick up and drop off participants. You will also be asked to share information about events, happenings, and other goings-on during your drive with riders.

*What's a typical shift like?*

Shifts are four hours long, and basically involve driving in a huge circle for the entire shift. You'll meet new people, see new things, and get to look super cool behind the wheel :)

*Volunteers should bring:*

Water, snacks, sunscreen, a portable radio, etc. Maps of Mysteria will be provided!

## **Signage**

*Lead: Alexa Eliana*

*Co-Lead: Bubble Butt*

Signage team helps you know where the hell you are and where the hell you're going. Transformus is pretty large and has lots of need for labeling. The Signage team works hard pre-event to create everything from entry signs, to info kiosks, to neighborhood signs, and pretty much anything that gets printed and is for participant viewing.

*What a volunteer should expect:*

Signage needs help with turning on the lights for each neighborhood's sign, as well as replacing batteries as needed. Head to Mission Control in Center Camp at the start of your shift to meet with your team lead!

Camp Beemore is a Baltimore-based Burner menagerie of visionary mischief-makers, uninhibited booty-shakers, virtuoso world-creators, avant-garde awe-curators, fathomless dream-dreamers, unrelenting plan-schemers, earth-shattering music magicians, extraordinary experience technicians, rowdy blissful chaos agents, and trickster status quo reagents. Home is wherever we build our Hive, and we give our all to keep our vision alive. Our hands may be dirty but our spirits are free and we're shaping the kind of world where we want to be. A Bee is industrious, but never a martyr; we work feckin' hard but throw down even harder. We keep it buzzing non-stop (a Bee's work's never done) but the sweetness we all share is damn worth it, hon.

*Organizer: Megan Cosmos and Dust Bunny*

*Region of Origin: Cackalacky*

We used to just put food on titties. But oh my, things have gotten quite out of hand since then. We are home to the "pickled egg incident," the original butt plug tug of war, and we're the miscreants responsible for the phrase "Butt Stuff Burn"! We like to think of Tasty Pasty as a land of opportunity and spectacle for saying HELL YES to radical consensual experiences. Participants have described us as "their favorite experience ever at a burn" and thanked us profusely for pushing boundaries in the burn world. We aim to razzle, dazzle and shock you to your core, but also hope that our genuinely weird experiences allow you to open your sphincter up...oops I mean SELF... to love and to understand yourself a little better. To be quite honest, we never know what we're going to think of next, so come get weird with us and leave your dignity at our door because you're not getting it back!

# **2019 Art Installations**

## **2019 Effigy: She Lights the Way**

Created by Infinity Gathered

Lead: Michael Verdon

Co-Leads: Rob Pryor, Ryan Seeley, Jenn Richter,  
Emily Dalphy, and Beyond Joy

"She Lights the Way" is this year's effigy installation. She stands upon the "Lava Flower" guiding us home. She is an heroic and powerful Goddess with infinite wisdom, an inspiration for all. Her flames light the path home and invite you to rest within the Lava Flower too. Play with the element of fire that churns from deep within the Lava Blossoms. If you work together and learn to control the lava flows, new patterns and effects emerge! Come for the communal interaction and stay for the pyrotechnics; she is sure to be unforgettable!

## **2019 Temple: Crystal Temple**

Created by Ezra

Our Temple resembles a crystal cluster, a silver tower rising to the sky with points growing from the base and sides. Visit at night to see the daytime quartz forms as they morph from amethyst, to citrine, to aquamarine, to jade. Enter to explore and add to the different vibrations on each level. Add to the altar your notes, your letters, your love, your grief, your growth, your resolution, your joy, your exhalations, your manifestations. All will be offered in the fire, burning away that which you release, amplifying that which you wish to grow, communicating with the spirits and world after, shifting frequencies and raising your vibrations through this communal ritual.

### **The Gifting Tree**

*Artist: Oujacat*

*Location: Avalon*

Practice the Principle of "Gifting" by bringing your offerings to the Gifting Tree. Bring something for others, or take something that you like.

One of the very first things I encountered at my first burn was **The Gifting Tree** – an area (usually a large tree, although the exact location/landmark shifted through the years) where event participants could bring a gift for others to enjoy or where they could find something that called to them to take for themselves.

**Gifting** and sharing are an important component of Burn culture, and the principle of "gifting" encompasses aspects of many of the other principles as well. Whether it's through the sharing of our food, music, conversation, artistic talents, something from our lives that we are ready to part with, or ourselves through **Radical Participation** and **Radical Self Expression**, a "gift" is something to be given or taken without expectation. It is an opportunity for both giver and receiver to gain pleasure from the exchange and the **Immediacy** of the moment.

### **The Lights for the Effigy: She Lights the Way**

*Artist: Pyrocelt*

*Location: Effigy Field*

Wouldn't it be funny... if the year there was no effigy application and no temple application (by the original application date), Mysteria had an effigy firing giant balls of fire that lit up the sky for not one, not two, but three full nights? That is how this collaboration began, when Michael Verdon (the designer of this year's effigy, amongst a dozen or so other effigies and temples) messaged me and said "Hey, can you add some giant propane fire balls to my effigy design this year?" And I said "I sure can!"

## Love Tower

*Playform*

*All Ages*

*11:00 AM to 12:00 AM*

*Location: Camp Wrong Way, Valhalla*

### Love Tower Principles

- **Radical Self Reliance:** Welcome to Camp Wrong Way! Please rely only on the inner resources you have to climb the tower. If you are too impaired, enjoy the activities of Wrong Way from the ground. One person on the ladder at a time, and 3 points of contact on the ladder must be maintained at all times. Do not climb any part of the Tower other than the ladders. Do not climb the ladder with anything in your hands or precariously placed about yourself that could fall while you are climbing. There is a basket for lifting things to the top. All children must be accompanied by an adult.
- **Radical Inclusion:** You are included! You are included in an open invitation to participate with Camp Wrong Way and our Love Tower. You are also included in the Radical Self Reliance guidelines above. Please help include your friends and other burners to include themselves in the Radical Self Reliance guidelines above.
- **Radical Self Expression:** You do you! But please do you without infringing on the comfort, safety, or consent of others in this limited space on Love Tower.

- **Participation:** Participate with Wrong Way! Enjoy all of our camp. We have plenty of activities other than the Tower to participate in.
- **Leave No Trace:** No, SERIOUSLY, bring your own cups and take them with you. Don't leave your shit or anything else here or on Love Tower. If you leave your shit here, you might find it in your tent later, along with any other leftovers.
- **Communal Effort:** We love bringing Love Tower and we want everyone to enjoy it. Please look out for fellow burners and help them with Love Tower principles. Please tell us if something or someone is looking sketchy.
- **Civic Responsibility:** It is your responsibility to follow the Love Tower principles, and our responsibility to ask you to stay off the Tower at our discretion. As you probably know, an incident at Love Tower can lead to a bummer of a burn for so many people. Don't be that bummer burner!
- **Giftng:** The Tower and our camp activities are our gift to everyone. We would be ecstatic if your gift to the burn was to follow these guidelines in, on and around Love Tower and Camp Wrong Way.

*Location: In the Field Behind Fromage Grille*

This is where the saucers come out to fly in Mysteria. Extraterrestrial travelers beware! No abductions will be allowed, but experimentation in all ways of saucer tossing, chasing, and catching is highly encouraged. Saucer tossing is for those who are not afraid

of the unknown, for learning to chase and consistently catch elusive saucers will answer many mysteries. With enough saucer chasers together, we will test our training during friendly games of opposing saucer tossing teams. Disclaimer: Saucer tossing may or may not be useful during a chance encounter with a real flying saucer. If you spot a flying saucer with travelers from the great beyond, feel free to or not to put your saucer tossing skills to the test. Such an encounter may even happen at Transformus. Weirder things have happened in Mysteria. Bring: Comfortable shoes/socks and a hydrating beverage.
